

WOMAN LAKE

~LANTERN BAY~

*Cass County
Wabedo Township
2006*

LLAWF working with Woman Lake Association and the Save Lantern Bay Wetlands Committee has brought in over 320 individual donations tallying over \$84,000.

This has led to greater visibility of the policies and actions of the Cass County Planning Commission and Environmental Services Department, the need to review and update DNR Shore Land Rules especially regarding Intra-Lake Reclassification and creation of a new Woodrow Township Planning Commission. Private legal challenges to the County's process and decision to permit the platting of the site remains in progress. The controversy continues to garner statewide attention.

*Leech Lake Area
Watershed Foundation*
